Centralised Company Announcements Office  
Australian Stock Exchange Limited  
20 Bridge Street  
Sydney NSW 2000

Dear Sir,

**CRJ 0011 - Announcement of Copper Range Limited New Website**

---

Copper Range Limited (ASX Code: "CRJ") has pleasure in advising that its new website has gone live as from today at [www.copperrange.com.au](http://www.copperrange.com.au).

This website incorporates much of the technical information from the Prospectus. In addition it now provides shareholders with:

- a link to the ASX share price
- An Investors Centre which now has commodity reviews, news articles, investment reviews, interviews and research reports

Shareholders attention is drawn to the recent International Copper review, the Aegis research report and to the press articles following our successful listing on June 7 2006.

The total issued capital of Copper Range Limited is 39,500,000 shares of which 22,315,453 shares will be escrowed for various periods from 12 months to 24 months, which leaves 17,184,547 shares free to trade.

The proceeds will be used to continue exploration of three main projects, all in South Australia:

- The Olympic provinces of the Stuart Shelf – detailed ground gravity surveys, soon to start, are designed to establish drill targets.
- The Hawker region of the central Flinders Ranges – initial reconnaissance has revealed potential for copper, gold and possibly uranium. The copper is manifest in several mineralisation styles. Oxide copper is widespread, with concentrations at Wirrawilka, Wyacca and Holowilena South. Potential Zambian- type copper targets have been identified at Three Creeks and Siccus Creek. Initial field work is designed to provide targets for drilling scheduled to commence in July.
- The historical copper centres of Burra and Kapunda – initial exploration has commenced on historic workings which show extensive copper mineralisation. At Princess Royal detailed geophysical surveys are planned ahead of drilling.

A total of A\$1 million exploration expenditure is planned on these projects in the first year. That amount excludes the South Australian Government's PACE funding for two approved drilling programmes.

Copper Range values the loyalty of shareholders. As outlined in its Prospectus, the Company has a loyalty option planned for the fifth month after listing for all shareholders in recognition of that loyalty. Full details will be announced closer to the time.

Yours sincerely,

A handwritten signature in black ink that reads "Stephen Blackman". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Stephen E Blackman  
Managing Director
